

Association of Ameritech /SBC Retirees, Inc

Proudly working on behalf of retirees of the AT&T Midwest Region, SBC Midwest Region, Ameritech, and predecessor/successor Bell Companies of the New AT&T, located throughout the United States

Legislative Ledger

June 2, 2008 – Republican and Democratic Platform Comments by the NRLN

All members of AASBCR, are also members of the National Retirees Legislative Network NRLN. The NRLN has 2 million members nationwide and a full time lobbyist in Washington DC assuring that our retiree issues are presented to Congressional Legislators from a position of strength.

The National Retirees Legislative Network (NRLN) has been working diligently on developing detailed proposals to both the Republican and Democratic Platform Committees. The platform inputs will be discussed among the Committee members when they meet to finalize their party's platform and elect their Presidential candidate. The NRLN proposals are now available on the NRLN website for review by all AASBCR members at the following links:

[Click here to read the proposal to the Democratic](#) Platform Committee.

[Click here to read the proposal to the Republican](#) Platform Committee.

These inputs cover major points of the NRLN's 2008 Legislative Agenda - items which are focused on retirees and their needs. Your AASBCR_{SM} officers' recommendation is that you avail yourself of this information so you will continue to make informed decisions. We are at a very significant point in history where our country's priorities and direction will be set or re-set for oncoming generations. It is most important for us, the people who have lived through the last half a dozen decades, to continue to stay informed and democratically push ahead those things which our experiences have taught us work.
