

A Letter from the Board

August 20, 2011

To all AASBCR[®] members:

The AASBCR[®] will experience some board vacancies this coming year. While your board members all are very concerned about AASBCR[®], life sometimes interferes. AASBCR[®] needs volunteers right now. Assistance is needed in communications, legislation/regulation, financials and membership. The current AASBCR[®] board cannot accomplish all that must be done without YOU. AASBCR[®] needs more volunteers or the necessary tasks may not be completed on time or, even worse, not completed at all.

- Proposed Federal legislation and new regulations, which can vitally affect retirees' future, may not be explored and influenced toward a retiree friendly position.
- AASBCR[®] members' unique benefits and pension issues may not be handled in a timely fashion. When a member encounters difficulties with their benefits, resources to help them may not be available.
- The newsletter that all members enjoy may no longer be published quarterly. Other helpful publications may be published less frequently or not at all.

All of your board members are very concerned, but they are tired and in need of assistance. AASBCR[®] must continue the important task of supporting the AT&T, Ameritech and SBC Retirees but cannot continue to do so without additional assistance. The lifeblood of the organization needs to continue and the small group of volunteers is currently doing double duty.

Please seriously consider stepping forward and donating what time you are able to assist your retiree group in supporting you. Call the virtual office number at (312) 962-2770 or email at info@asbcr.org and someone will get back with you.

Thank you, in advance, for your help.
